

## How To Keep The Toilet Paper Rolls Sanitary For Your Hotel Guest

2008-01-16

---

It has been proven that every time a toilet is flushed a small amount of material from the toilet becomes airborne.

These minute moisture droplets are very small and contains many different bacteria including e-coli.

These bacteria droplets actually travel several feet eventually encompassing all of the bathroom surfaces.

Unfortunately unlike the rest of the bathroom the toilet paper rolls cannot be washed or disinfected.

Without a proper guard the toilet paper rolls in your hotel guest bathrooms are collectors of bacteria with each flush of the toilet.

The simple solution is to use a beautiful decorative toilet paper cover.

Not only will the cover serve to keep the toilet paper roll sanitary the cover is also a beautiful decorative accent to the bathroom décor.

The toilet paper roll is always accessible but no longer visible. When it's time to change the roll simply lift the cover.

Featured above is a toilet paper cover fabricated in Hydrangea Thatch.

The award winning covers are available in a myriad of design possibilities from encapsulated interlays, design savvy metals to shatterproof translucent.

Come and explore with us the various materials, textures, patterns and hues that will allow you to create unique toilet paper covers for your hotel guest bathrooms.

Stay on the cutting edge and cover those toilet paper rolls with...Just A Cover.
