

Las Vegas Sands Corp. Selects MICROS 9700 Hospitality Management System for The Palazzo
Resort-Hotel-Casino
2008-03-06

MICROS Systems, Inc. (NASDAQ:MCRS) , a leading provider of information technology solutions to the hospitality and retail industries, is pleased to announce that Las Vegas Sands Corp. has selected MICROS 9700 Hospitality Management System (HMS) for its new luxury resort, hotel, and casino, The Palazzo Las Vegas.

Adjacent to The Venetian property, The Palazzo went live in January 2008 with 110 MICROS Workstation 4 LX terminals added to The Venetian's existing system, resulting in a single 275 terminal point-of-sale (POS) system spanning both properties.

The first new hotel on the Las Vegas Strip in nearly three years, The Palazzo sets unparalleled standards for luxury and sophistication. The Palazzo features spacious suites, top celebrity chefs' restaurants, the largest Canyon Ranch SpaClub to date, and The Shoppes at The Palazzo, anchored by Las Vegas' first Barneys New York. As a long-term client of MICROS, the Las Vegas Sands Corp. recognized the benefit in extending MICROS 9700 HMS to support The Palazzo. Enterprise enabled, web-delivered, and highly scalable, MICROS 9700 HMS meets the expectations of Las Vegas Sands Corp. by offering an easy-to-use POS solution while reducing total cost of ownership.

"The Palazzo is the highest-profile new property to open in Las Vegas this year and we are proud to be a part of this momentous project," stated Bob Raiche, Senior Vice President, North American Distribution for MICROS Systems, Inc. "Built on years of industry experience in the Las Vegas market, MICROS 9700 HMS provides Las Vegas Sands Corp. a scalable and flexible architecture. Capable of supporting its evolving requirements as the business grows, MICROS is eager to strengthen its partnership with Las Vegas Sands Corp. in the future."
