

Westin Imagine Orlando Residences Select Ownerrelations Technology

2008-03-26

The Westin Imagine Orlando becomes the third Intrawest Condo Hotel to utilize the Owner Experience Enterprise software solution.

OwnerRelations Technology is selected to install the Owner Experience Enterprise solution for Intrawest's Westin Imagine Orlando. Other Intrawest managed Westin properties to use the Owner Experience enterprise solution include the Westin Monache, and Westin Trillium House Blue Mountain.

'This is a great example of how a company such as Intrawest, with properties located throughout North America can use an Internet Based Enterprise Solution to efficiently manage owner accounting and owner relations. Owner communication is managed from each individual property, and the owner accounting is centrally managed from their Hospitality Technology office in Golden Colorado.', says Frank Franchini, president of OwnerRelations Technology. 'With multiple properties sharing the same database a number of immediate benefits are also realized including cross property reporting, and the ability for condo owners across different properties to use a centralized common login.

Because we specialize in the area of owner accounting and owner communication for condo hotels, property managers, and fractional properties we have been able to deliver a robust enterprise solution which meets the exact requirements defined in each owner rental management agreement.'

For these properties, the Owner Experience Enterprise software solution has been interfaced with the Galaxy Hotel Reservation System and allows condo owners to retrieve their personal financial statements, documents, messages and other information online 24/7/365 through a secure web portal.

The Westin Imagine Orlando joins a growing list of properties to take advantage of improved owner communication and the robust owner accounting solution provided by the Owner Experience condo hotel and fractional hotel software solution.

About Intrawest

Intrawest is a world leader in experiential destination resorts. The company has interests in eleven resorts at North America's most popular mountain destinations including Whistler Blackcomb, a host venue for the 2010 Winter Olympic and Paralympics Games. The Intrawest network also includes Canadian Mountain Holidays, the largest heli-skiing operation in the world, Sandestin Golf and Beach Resort in Florida and Club Intrawest-a private resort club with nine locations throughout North America. In addition, Intrawest develops real estate at its resorts and at other locations across North America and in Europe. Intrawest is headquartered in Vancouver, British Columbia. For more information, visit www.intrawest.com.

About OwnerRelations Technology
