

icableholder.com, designed with the discerning Hotelier in mind!

2008-06-04

icableholder.com is pleased to announce that it will have a stand (#1945) at this year's HITEC, in Austin Texas, June 17th to 19th, 2008.

Since its launch in June 2006, the icableholder has been selected as a brand standard by many hotel groups and Broadband suppliers and is now installed in over 100,000 hotel rooms in the United States, United Kingdom, France, Germany, Singapore, China, Malaysia, Philippines, United Arab Emirates, India, Egypt, Japan, Australia and New Zealand.

The unit has been designed specifically for the hotel industry by ex hoteliers to be both good looking as well as functional. Hotels spend a lot of money on in room furnishings and it doesn't make sense to detract from that with an unsightly tent card or ugly plastic cable holder.

The icableholder is stylishly designed to enhance a hotel's interior with its hard-wearing metallic top and durable non slip base. The slim lined, soft curved shape is easy to use and pleasing on the eye.

The icableholder

ensures the guest broadband cable is visible and readily available

acts as a point of sale piece and can be easily branded

designed to clearly & cleanly present guest broadband instructions

securable so it cannot be removed by guests

To learn more about icableholder, please visit: www.icableholder.com email info@icableholder.com or call Australia +61 2 8205 9651 or visit icableholder at stand #1945 at HITEC, in Austin Texas, June 17th to 19th, 2008.
