

Crowne Plaza Redondo Beach Hotel Launches New Website, Internet Optimization Partnership

2008-06-30

Management and staff at Crowne Plaza Redondo Beach Hotel, one of the leading Southern California beach hotels, are welcoming all potential west coast vacationers to check out their newly-designed independent website.

The new site was designed, developed, and written by Worldwide Revenue Solutions (WRS), an Internet marketing company based out of Dallas, Texas that specializes in service to the hospitality industry.

While the design comes from WRS, the LAX area hotel was happy to provide valuable input on site features and content that would best benefit lodging-seekers in the Redondo Beach area such as surfers, beach goers, shopping enthusiasts, and Los Angeles tourists. In fact, launching the site is only the first step in a partnership between the property and WRS dedicated to Search Engine Optimization (SEO). SEO involves, among other things, designing written content around certain keywords to improve the search engine performance of a website.

The new site combines the warm, coastal colors of the surrounding beaches with sharp hotel photography and an emphasis on local activities and the Redondo Beach hotel's convenient location near downtown Los Angeles. Not just visually pleasing, however, the site is smartly-constructed to turn the uncommitted browser into a qualified booking with clean, user-friendly content and eye-grabbing 'Call to Action' banners.

In the midst of an exciting summer season, Crowne Plaza Redondo Beach Hotel is delighted to have fresh new site to attract Southern California's bustling leisure market. All are encouraged to visit the site [here](#).
