

PerfectTablePlan Seats It's Two Millionth Guest

2008-10-07

Oryx Digital announced today that their seating planner software, PerfectTablePlan, has now been used to seat an estimated two million guests at gala dinners, fundraisers, weddings receptions, bar mitzvahs, award ceremonies and other events.

First launched in 2005, the software is now being used in more than 50 countries with a client list that includes hotels, fortune 500 companies, charities, universities and museums. Version 4 of PerfectTablePlan was released recently, adding more than 30 new features and improvements.

"We are delighted with the continued success of PerfectTablePlan." said Oryx Digital Director Andy Brice. "Doing seating plans by hand is very time consuming and prone to embarrassing mistakes, but PerfectTablePlan has changed all that. We think it is clearly the leader in this market in terms of features and ease of use and at a very competitive price. We intend to continue improving PerfectTablePlan and have plenty of innovative new features planned".

PerfectTablePlan is available for Windows and Mac for just \$34.95/£19.95/24.95 from www.perfecttableplan.com. It comes with a 14 day money-back guarantee and a free trial can be downloaded from the website.

ABOUT ORYX DIGITAL:

Oryx Digital is an independent software publisher, based in the UK.
